

HEART and HOME PROBLEMS

Mrs. Elizabeth Thompson

Dear Mrs. Thompson: (1) Does a boy of 18 know what love is? (2) I am engaged to a young man of 29, and I am engaged to go to the postoffice with him, where he received a letter and would not even let me see the envelope when I asked him to, and told me that it was his brother's, but positively refused to let me see the envelope. Advise me what to do. He pretends to be a very religious man. (3) Does he really know he loves me? I have already consulted my mother.

BROWN EYES.
(1) No. But he thinks he does. (2) You were "nosey." Make up your mind right now that you will have no mind over your husband's letters and that he will have no right over yours. If you can't trust him to do what is right, give him up right now. (3) He ought to and probably does, or he would not have asked you to marry him.

Dear Mrs. Thompson: (1) How can I make my hands white and soft? (2) Does cold cream make hairs grow on face? (3) Am going to give a party; should I invite boys? (4) When some one calls you up on the phone and doesn't give the name, should I ring off? (5) After I wash my face, it shines. What can I do so I won't have to powder? (6) A boy friend wanted to take to the show, I refused. Now he wants to take me again. How can I let him know I won't go without hurting his feelings?

LETIE.
(1) Use a mixture of glycerine and rosewater and wash the hands often in oatmeal water. (2) A good cold cream will not. (3) Yes. (4) A respectable person will give his name. (5) A piece of chamois passed over the face, without any powder, will take away the shine. (6) Tell him your mother does.

Dear Mrs. Thompson: What will remove chewing gum from a blue serge dress?
P. S.

Alcohol.

Dear Mrs. Thompson: (1) I am a boy of 18 and deeply in love with a girl of 16, and I think she likes me. I have never gone to dances, but she likes to go. Do you think it would be wise for me to go to dances? Or how could I keep her from going, as I don't like the other fellow she goes with? (2) I live nine miles from her home. I go once in two weeks. Is that too often? (3) Is it wrong for a girl to let a fellow kiss her if they intend to get married?
RALPH.

(1) Both of you are too young, my boy. Wait until you are really a man and know what love is, before you set yourself on a girl. You won't like that kind of a girl at all, probably, when you are 21. You can't cure her of liking to go to dances, and I wouldn't advise you to start going to public dances, as they always do more harm than good, and get you acquainted with an undesirable class of people. She probably likes the other kind of fellow better than your kind. (2) No. (3) It is not wrong for a girl to let her "intended" kiss her.

Doughnuts

That will remain moist.

Every housewife who bakes her own bread knows that if a little potato is added to the sponge, the bread will not dry out as quickly. In this recipe potato is utilized to make doughnuts that will remain moist and fresh for several days.

K C will be found to have distinct advantages over any other Baking Powder for doughnuts. K C is a double acting baking powder with which a large batch of doughnuts may be mixed and fried a few at a time. The last will be as light and nice as the first.

K C Potato Doughnuts

By Mrs. Nevada Briggs, of Baking School fame.

3 cups flour; 2 eggs; 1 cup sugar; 1 level teaspoonful K C Baking Powder; 1/2 teaspoonful salt; 1/2 teaspoonful molasses; 1 cup cold mashed potato; 1 cup milk, or more if needed.

Sift three times, the flour, salt, spice and baking powder. Beat eggs with rotary beater, then still using rotary beater, gradually add sugar, then work in the mashed potato with a spoon and alternately add milk and flour mixture. Make a soft dough, roll into a sheet, cut into rounds, pinch a hole in the center with the finger and fry in deep fat.

Fat for frying should not be hot enough to brown the doughnut until it has risen. When the doughnut is dropped into the fat it should sink to the bottom. As soon as it comes up it should be turned and turned a number of times while cooking. This recipe is excellent as they do not take the fat in frying and will stay moist for days.
